

This year the children have a Learning Journey and Maths book. Do you like this change?

“Yes it is easier to see the progress”
“ Brilliant change”
“Really liked the layout and plenty of photos”
“having a chronological order gives the content context”

Teachers are encouraging pupils to review and respond to their marking. All children have 'fix-it' time during the week

Parents' Evening—Would you prefer a choice between a daytime or evening appointment rather than two evenings?

Overall parents/carers preferred the current system of parents evening over two days.

Do you have any feedback about homework?

This aspect had mixed feedback and a split with parents and carers feeling it is the right amount/age appropriate and others finding a struggle to fit all in. There is an overwhelming majority that appreciate reading with the child is essential.

This will be reviewed with staff and parents/carers

Parents' Voice/Home-School Communication: Do you feel your voice is heard? Any suggestions as to how we can enhance communication?

Home/School communication is excellent.
Any concerns/questions are quickly dealt with.
“As parents we feel our opinion is asked for”
Like the diaries
Teachers/HT are always available

Some parents suggested having letters via email, this is something we will look at.

What are your thoughts on transition between year groups?

This was an extremely positive response. Feedback highlighted the themed days where children are in classes with a range of R-4, move around the school and are taught by different teachers.

We want to further develop this i.e. we will schedule 'meet your new class teacher' sessions for all year

Groups for our parents/carers—more details to follow

Curriculum. Do you feel your child has a varied curriculum experience?

Varied lots of activities

They (the children) enjoyed the whole school topic days

- enjoys the topics and visits
- lots of different topics
- children seem to have a good variation

Parent Survey Feedback January 2016
