Dear Parents/Carers

Re: School Car Park

Following concerns about children's safety, we have recently been reviewing the use of our school car park. There are a lot of vehicles using quite a small car park, particularly at the start and end of school.

We asked children for their opinions and ideas on what to do. Children said they had seen speeding and dangerous driving and they don't feel safe. We looked at other schools and found that most school car parks are for staff parking only. We also took advice from the Council.

Therefore, for everybody's safety and in particular to stop **children feeling 'worried and nervous'** when coming into school, we have to advise you that **from September Tenacres school car park will be staff only.**

We would ask that, when parking in the area surrounding school, to please consider access to school for everyone and for coaches and emergency vehicles, and please consider access for local residents. Thank you.

Yours faithfully

Tenacres Governing Body
